

Data Sheet E – Results of Internal Review Committee

Date of Review/Recommendation: March 28, 2008

Water Body Under Evaluation:

Water Body ID #: 0276
Name: Brush Creek (Class C)
Length of Segment: 8.0 miles
County(ies): Platte

Use Attainability Analysis (UAA) Study:

UAA ID #: 0595
Submitter: SES, Inc.
Date(s) Conducted: October 23, 2007
Date Received: November 14, 2007
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in October 2007 and no WBCR was observed. No interviews were conducted during the survey. The 2005 UAA cites footprints, ATV tracks, parks and playgrounds nearby. A citizen comment on that UAA cites a deep pool (>4 ft.) near Hwy 45.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criterion at 5 out of 5 sites evaluated. Due to meeting the depth criterion, the committee recommends the WBCR use designation be retained. Due to evidence of secondary contact (footprints, ATV tracks), the committee recommends Secondary Contact Recreation be assigned.

Committee Recommendation:

☐ Add Use ☒ Retain Use ☐ Remove Use
☐ Modify Use ☐ Inconclusive
